

Q-Wrap by NewLite is an innovative and easy way to repair drip tubing. Originally developed for the US military. The next generation **Q-Wrap** is a self-bonding wrap made from a special high-quality silicone rubber compound which adheres to itself when wrapped under tension. Q-Wrap forms a non-conductive, air and water tight seal. **Q-Wrap** does not require gloves, and does not leave a messy clean up. **Q-Wrap** comes in multiple colors and sizes. One roll can be used for several repairs.

Product Features

- Seals leaky or broken Tubing, Pipe, Fittings, Hoses & More!
- Holds to any Surface / Forms to any Shape
- Works on Wet, Dirty or Dry Surfaces
- Does not stick to Pipe Surface
- Resists UV, Solvents, Oils, Chemicals & Salts
- Better than heat shrinkable tubing
- Never gets Gummy or Sticky / No Messy Cleanup

WATERPROOF

Creates an airtight & waterproof seal for indoor & outdoor protection.

FLEXIBLE

Forms around irregular shapes while stretching over 300%.

TEMPERATURE RANGE

Works in extreme temperature ranges from -65° F up to 500° F.

INSULATION

Insulates as it wraps with superior dielectric strength.

UV RESISTANT

Resists UV, salt, fertilizers, solvents, oils, corrosive chemicals, and abrasion.

NO ADHESIVES NEEDED

Leaves no residue. Bonds to itself not surface. Removes easily.

Part Numbers:

Blister Packaging

- **NLQW-B** (Black 25mm x 3m)
- **NLQW-R** (Red 25mm x 3m)

Bulk Roll

- **NLQW-BBulk** (Black 25mm x 11m)
- **NLQW-RBulk** (Red 25mm x 11m)

SPECIFICATIONS

| Properties | Performance |
|---------------------|------------------|
| Operating Pressure | 35 PSI |
| Tensile Strength | 700 PSI min |
| Tear Resistance | 85 PSI |
| Ultimate Elongation | 300% min |
| Water Absorption | 3% Max by Weight |

All specifications are subject to change without notice
